

STANFORD PLACE

EXPLORE THE WORLD OF CONCRETE HOMES

USA is dedicated to creating beautifully and creatively designed, sustainable, energy efficient, affordable, durable, and safe homes that give many more Americans a shot at homeownership. Inspired by extensive architectural and engineering work, our goal is to provide buildings that are more than houses – our concrete insulated homes are designed to be homes that will last decades with minimal maintenance and make homeownership more affordable. These homes are modern yet timeless.

COMFORT AND COMMUNITY

With its flat roof and abundance of windows, this small urban-looking cottage will blend in perfectly with the surrounding nature. The house has 1,231 square feet of living space and features an open floor plan that includes a kitchen with an island, a dining room and a good sized living area. This small modern house plan offers a two Master bedrooms both with a nice size bath in a compact footprint. The front entrance takes you directly to the living area which is open to the eat-in kitchen.
